BENEFITS OF SANDALWOOD

Sandalwood has been treasured for centuries for its unique fragrance, therapeutic benefits, and spiritual significance.

This timeless wood is revered across cultures for its calming aroma and holistic healing properties, making it one of the most sought-after natural resources.

With its growing rarity and increasing demand, owning land with 2000+ sandalwood trees is not just about being close to nature-it's an opportunity to invest in a future of prosperity.

Sandalwood's soothing aroma is widely used in aromatherapy to relieve stress and enhance relaxation. Its natural oils are also a key ingredient in skincare, known for their anti-inflammatory and healing properties.

GROWTH AND ECONOMIC ANALYSES OF
SANDALWOOD PLANTATIONS

YEAR	RATE PER KG IN RUPEES	AGE OF PLANT IN YEARS	HEARTWOOD YIELD PER TREE IN KGS	YIELD PER PLANT IN KGS	MARKET VALUE @ Rs.16,500/-

Sri Gandham
Plantation

A thoughtfully designed community that blends modern living with nature's serenity. Sree Rama Infra and Developers presents a well-planned residential project offering a 20-acre gated community with 100 premium plots, ensuring privacy and exclusivity in the lap of nature. The development includes 3.3 acres of commercial space, a hustle-free life away from the city, with a 1.5-acre clubhouse, designed for recreation and social engagement. Adding to its natural charm, the project features a dedicated Sri Gandham plantation, enhancing green living.
